RUST-OLEUM®

Imagine, spray, create!

PRODUCT DATA

SPECIALIST APPLICATIONS – DIRECT TO PLASTIC USE ONLY AS DIRECTED.

Renews and revitalises indoor and outdoor plastic surfaces. Ideal for plastic furniture, plant pots and storage boxes. No primer is needed. NOTE: some plastics made of polyethylene are manufactured in a manner that may hinder maximum paint adhesion for best results test product on a discrete area of a substrate.

Preparation: For new plastic surfaces thoroughly wipe down surface with paint thinner to promote optimum adhesion. For aged or weathered surfaces remove material with a dry brush then clean with soap and water, rinse and allow drying. Cap/or label indicate approximate colour and finish. Cover surrounding areas to protect from spray mist.

Application: Shake can vigorously for 1 minute after mixing ball begins to rattle, continue to shake regularly during use. Hold can 30cm from surface and spray in a steady back and forth motion, slightly overlapping with each stroke. For best results whilst spraying keep the can the same distance from the surface and keep the can in motion. Apply several light coats a few minutes apart.

Cleaning: Wipe wet paint from tip before storing, if the valve clogs during use, remove and rinse with white spirit.

Drying and recoating: Touch dry in 30 minutes. Hard dry in 24 hours. Recoat within 1 hour or after 48 hours.

Coverage: The can covers approximately 1.5m² per coat dependant upon surface profile/porosity.

Limitations: Do not use on galvanised steel or surfaces that regularly exceed temperatures over 90degrees. Apply only when temperature is between 10-32degrees and relative humidity below 85%.

Special precautions should be taken during the surface preparation of pre 1960's paint surfaces over wood and metal as they may contain harmful lead. When dry-sanding avoid dust inhalation by wearing a suitable protective face mask. For further information please contact our technical services department on 01902 712286.
